

PROGRAM DESCRIPTION

The Tai Chi Fundamentals® Program (TCF)

The first program of its kind, it provides a clear, systematic approach for mastering Tai Chi basics that builds from simple to complex patterns of movement. Integrates mind/body components of Tai Chi with clinical overview, movement analysis, therapeutic & functional applications. Provides a prequel to a lineage tai chi form, and creates a bridge between tai chi practice and the medical model.

Program Elements: movements are taught in a motor development progression. Includes simple movements that can be practiced with walkers and have been modified for wheelchair use. Includes three elements:

- **Movement Patterns:** graded sequence of exercises with symmetrical arm movement that reinforce functional Movements repeated throughout the Tai Chi form. Introduced in a motor development sequence, they have applications both as assessment and intervention tools.
- **Fundamentals Form:** sequence of simple to more complex movements of modified Yang Style Tai Chi .
- **Mind/Body Principles:** foster mind/body integration; enhance breathing, relaxation, sensorimotor skills, proprioception and sense of well-being.

Development: in 1996 by Tricia Yu, MA and Jill Johnson, MS, PT, targeting elements from traditional tai chi that enhance balance, coordination, strength and endurance.

The TCF Program has been featured in: *PT Journal, Journal of Rehab Management, The Gerontologist, APTA's GeriNotes, Medline Plus, Topics in Geriatric Rehabilitation. Journal of Asian Martial Arts, Wellness Program Management Advisor, American College of Sports Medicine's Health and Fitness Journal, and Massage and Bodywork.*

Tai Chi Fundamentals® Program Professional Training Workshop Levels One and Two

Applications: Therapeutic Exercise, Wellness and Function

COURSE DESCRIPTION

Prerequisite: None. Open to Beginners

This interactive seminar provides you with tools and skills to begin applying tai chi in your practice. The course teaches you, in a motor development progression, to perform basic movements of tai chi, and to apply tai chi as an assessment and intervention tool.

The course combines lecture, movement labs, qigong training and discussions on biomechanics, applications and documentation.

This course qualifies as partial contact hours fulfillment for *TCF Instructor Certification Levels One and Two*. For more information see CERTIFICATION.

COURSE OBJECTIVES

- 1) Demonstrate the 12 TCF Movement Patterns
- 2) Perform first section of the TCF form
- 3) Describe TCF's medical, biomechanical & functional benefits
- 4) Apply tai chi as therapeutic exercise for rehabilitation and wellness programs
- 5) Document tai chi as part of therapeutic treatment intervention
- 5) Guide basic exercises for sensing qi

APPLICATIONS

Balance dysfunction, orthopedic and neurological rehabilitation, pain management, sports cross training, cardiovascular and respiratory diseases, medically complex, chronic fatigue, fibromyalgia, and special populations. Use in hospitals, sub-acute, outpatient clinics, and home care. Teach groups of all ages and fitness levels in community wellness classes, health clubs, tai chi & martial arts schools, senior centers and long term care facilities.

AUDIENCE

Physical and Occupational Therapists, Nurses, Activity Directors, Recreational and Fitness Professionals, Tai Chi and other Martial Arts Instructors, and Alternative Health Practitioners

FEES

2-day Course: \$310 1-day Course: \$185

\$30 late fee & no refunds after registration deadline date

REQUIRED COURSE MATERIALS

Complete Program Set: \$120* includes the following 2 sets:

o **Professional Set:** *TCF for Health Professionals and Instructors* text and video/DVD.

o **Personal Practice Set:** *Tai Chi Mind & Body* text and *TCF: for Mastering Tai Chi Basics* instructional video/DVD

**You may purchase the Personal Practice Set only (\$50) if you do not want materials that include biomechanics analysis. Complete Program Set is recommended for Certification in TCF.*

 - o Neuromuscular re-education: spinal stabilization and coordination
 - o Balance: double and single leg
- PROGRAM ADAPTATIONS
- PROGRAM APPLICATIONS
- CERTIFICATION INFORMATION

COURSE INSTRUCTOR:

David I. Rosenberg, Ph.D., LCP, CTI, RMT

Dr. Rosenberg completed his graduate studies in Counseling Psychology at Virginia Commonwealth University in 1993, and he has been a member of the faculty at Averett University for the past sixteen years where he is a Professor of Psychology. He has maintained a clinical practice for the past fourteen years, and his areas of specialization include mind and body wellness, stress and pain management. Dr. Rosenberg is also the Director of the Match-Point® Chronic Pain Rehabilitation Program. He completed Level 4 Certification in T'ai Chi Fundamentals under Tricia Yu of the T'ai Chi Center in Madison, WI, and has been a member of the instructional staff of the Danville Yoga & Meditation Center for the past seven years. He also studies and practices Qigong and Yang style T'ai Chi Chuan, and is a certified Reiki Master Instructor/Therapist. **WEBSITE: www.lifecoursewellness.com**
